

KUMDC's Tech Time

November 2018

Issue 5

A monthly guide to free helpful apps for students available on smart phones, tablets, and computers.

LetMeTalk

Utilize symbol and word combinations in this augmentative and alternative communication (AAC) app. It is highly customizable and very user-friendly.

BARD Mobile

This app assists students and individuals with vision impairments and physical disabilities through the National Library Service: Braille and Audio Reading Download.

Go Read

This is a wonderful resource for students who need an accessible reader for online books and print. Utilizing the Bookshare library, access many books and tools for reading.

TED

An interactive way to practice relevant math skills, this app offers solo and multiplayer games to test and drill math at individual student levels.

Visualize - Vision AI

Students who have a hard time seeing or deciphering objects due to visual disabilities may benefit from this app which turns real pictures in to word explanations.

Model Me Going Places

This social skills app assists with community outings and transitions. Using video modeling, students can learn to access the community with more independence.

Google Calendar

This app makes organizing your time and tasks easy! Schedule appointments, list and check off tasks and assignments, and find it all organized in one customizable place.

The Free Dictionary by Farlex

This is an extensive dictionary app providing definitions, pronunciations, origins, and example sentences. All tools in the app are also usable offline.

Nasa

Do you have an interest in science and space? This app will keep you up-to-date with real space station updates, videos and pictures from space, and mission information.

Wonder Science

If you enjoy the scientific method and watching how things work, you will also enjoy this app. Watch hundreds of videos all featuring the world around us.

Available on:

App Store

Google Play

Microsoft

Amazon
